## Water Storage Tank Maintenance

During the past couple of weeks the million gallon ground storage tank along Route 143 at the entrance to Silver Lake Park has been undergoing maintenance. Utility Service Company, the same contractor who recently completed the renovation of the elevated tank, has been doing the work.

Work will consist of repairing a leak, installation of a mixer, chemical clean, wash out, and repainting the exterior.

Crews putting the new logo on the recently repainted ground storage tank.

## Oil & Chip

Beginning next week, weather permitting, the Street and Alley Division will begin their annual oil and chip operations of various City street. Parking restrictions will be posted for the affected areas. Streets scheduled to be oiled next week include:
